NOXA BRASS LED is a recessed LED wall luminaire made of brass. The body has a length of 102 mm, width of 102 mm and height of 86 mm. Its recessed installation keeps the body within the wall and leaves the light opening visible. It suits paths, entrances and surfaces where lighting needs to form part of the architecture. The light source is an integrated high-power LED module. The opal polycarbonate diffuser creates a luminous surface with a soft appearance. The 2700, 3000 and 4000 K options with CRI90 allow the lighting to match the colour appearance required in the space. It is available in anthracite, black, white, grey and unpainted finishes. The construction is rated IP65 with an impact rating of IK08.

LUMINAIRE POWER

1.1 - 1.6 W

LUMINAIRE LUMINOUS FLUX

85 - 130 lm

The power and luminous flux ranges are calculated separately from the listed variants. For an exact combination, see the code details on the site.
