NUDO DAMA 2 LED is a recessed LED wall luminaire made of aluminium. The body has a length of 166 mm, width of 240 mm and height of 130 mm. Its recessed installation keeps the body within the wall and leaves the light opening visible. It suits paths, entrances and surfaces where lighting needs to form part of the architecture. The light source is an integrated high-power LED module. The optical surface is made of clear safety glass. The 2700, 3000 and 4000 K options with CRI90 allow the lighting to match the colour appearance required in the space. It is available in anthracite, black, white and grey finishes. The construction is rated IP65 with an impact rating of IK07.

LUMINAIRE POWER

2.1 - 3.1 W

LUMINAIRE LUMINOUS FLUX

116 - 178 lm

The power and luminous flux ranges are calculated separately from the listed variants. For an exact combination, see the code details on the site.
