COMIS WALL ROD is an LED wall luminaire made of aluminium. The body has a diameter of 20 mm. The listed variants use reference lengths of 100, 500 and 1000 mm. It adds a wall lighting point in homes, hotels and reception spaces. It complements the main lighting and draws attention to the area where it is installed. The head offers vertical adjustment through 30°. The 2700, 3000 and 4000 K options with CRI90 allow the lighting to match the colour appearance required in the space. It is available in anodized grey, black and white finishes. The construction is rated IP20. The raw profile is available in lengths up to 4,750 mm and can be cut or formed to suit project requirements. Dimensions and photometric data for each listed variant refer to its corresponding reference length.

LUMINAIRE POWER
