SITUS 01 is a recessed ceiling luminaire for GU10 and GU5.3 sources, with a metal body and 82 mm width, 100 mm height, 82 mm length. It suits homes, offices, hotels and commercial spaces where the ceiling needs to remain clean and the lighting should integrate quietly into the architecture. The replaceable source gives flexibility in lamp selection and makes future maintenance or changes in lighting effect easier. It is available in multiple finish options, with special RAL colours available on request for project-specific schemes. The recessed installation keeps the ceiling clean and allows the luminaire to work without drawing excessive attention.

The power and luminous flux ranges are calculated separately from the listed variants. For an exact combination, see the code details on the site.
