

TECHNICAL DETAILS

Housing : Die-cast aluminium
Lenses : PC lens
Rotation : Both Horizontal and Vertical available and adjustable angle -10° to 15°

Color Temperature : 3000K - 6500K
Luminous Flux : 13000lm - 14500lm
Input Voltage : AC90 - 305V
Frequency Range : 50 / 60 Hz
Power Factor : PF ≥ 0.95
Color Rendering Index : RA ≥ 70
Temperature of Working Condition : -40 - 50° C
Humidity of Working Condition : 20% - 90% RH
Control Gear : Built-in electronic driver
LED Lifetime : 50000h
IP : 66
Installation Pipe Diameter : Φ50-60mm
Installation Height : 6 - 10m
Watt : 100W (80W - 100W)
Weight : 7.2 kg

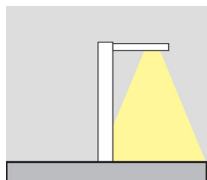

Colors

Product Description:

This series is a high-performance street lighting available in three sizes. The luminaire is manufactured from high pressure die-casting aluminium. It shall have a led efficiency up to 120 lm/w.
