

# KION

## Table light

The Kion lamp is inspired by classical Greek architecture and specifically by Greek columns, which have played an important role in the history of architecture and art. Its aesthetics is inspired by the simple beauty and balance of ancient Greek columns, offering a timeless and elegant design that combines tradition with modern aesthetics.

### Material and Construction

The lamp is made of high-quality materials, such as ceramic and glass, which reflect the classic beauty of Greek columns.

The body of the lighting fixture recreates the form of a column, while its upper part resembles a dome.

# KION Oval

## Table light

### Lighting

LED lamps are used to provide warm and soft lighting, creating a welcoming and relaxing atmosphere. The special construction of the glass dome ensures an even distribution of light, avoiding shadows and creating an impressive illumination.

### Functionality and Applications

**Home Spaces:** Ideal for living rooms, dining rooms and bedrooms, offering a touch of classic elegance.

**Commercial Spaces:** It can be used in hotels, restaurants and offices, giving a sense of luxury and historical value.

**Exhibition Spaces:** Suitable for museums and galleries, as it incorporates the Greek cultural heritage in its design.
